This unique 3100 square foot home with a two acre expansive yard is really two places in one. There is a main house and a separate apartment with private entrance underneath. Perfect for large groups who also want some separation/privacy among the group. House has a large deck and patio, apartment has a front patio.

House has a country feel while still only being 7 minutes from the biggest shopping area in Cville, 15 minutes to Downtown or UVA, and close to wineries and other attractions.

The space

COVID-19 UPDATE: House is fully cleaned and disinfected up to CDC guidelines between guests.

Very unique architecture and layout. House was built in 1968, but modernized so it has the charm of a mid-century modern house but the conveniences of a contemporary house.

You have the feel of the country, with wide open spaces and mountain views, but you are only a 5-10 minute drive from the largest shopping and dining area in C-ville, with many major retailers and restaurants, including Whole Foods, Target, Walmart, Trader Joes, Lowe's, . You are a 15 minute drive from the downtown mall and UVA campus. Shenandoah National Park, Blue Ridge Parkway, Wineries, Cideries, Breweries, Fishing, and Horseback riding are all close to you.

After a day visiting wineries, going hiking, visiting UVA, or enjoying live music and amazing restaurants on the Downtown Mall, you'll be happy to retreat to your beautiful quiet country home without having the long drive that usually accompanies a country getaway. Only around a 15 minute drive from downtown Charlottesville and many wineries and hiking trails, you can have the best of both worlds: convenience and the calm and peace of 'getting away from it all'.

Every morning, enjoy a Keurig coffee, or perhaps a french-press, on the spacious covered deck in a comfy Papasan chair while you watch the family of deer that visits daily, or perhaps a baby bear, in your 2 acres of backyard. You can make a breakfast smoothie with the heavy duty blender and go for a walk to see the Blue Ridge mountains through the hauntingly beautiful morning fog on the meadow across the road.

Cook in your fully-equipped open concept kitchen with a large gas stovetop and a deep commercial-style sink. Your guests can grab a glass from the bar cart and enjoy a drink while sitting at the bar and talking to you while you cook. You can dine at night outside under the warm glow of hanging string lights on the balcony.

Relax on the sectional couch under tall ceilings and use the Amazon Firestick to rent a movie or sign into your account to watch Netflix or HBO on the big screen 55" TV. There is a slight pleasant wood smell from the three stone fireplaces (living room fireplace has a gas 'fake fireplace' in it for warmth and ambiance, other 2 are non-working).

Open-air concept kitchen, dining room and living area with tall ceiling and windows, and huge stone fireplaces (see last paragraph). There is a large raised deck with a roof covering most of it, overlooking the 2 acre backyard.

You are booking the entire complex, the main house and the Terrace level apartment underneath. There will be no other guests or myself staying while you are there. You and your guests will alone have access to the apartment and the house and the grounds.

Main House:

One bathroom has bathtub/shower combo and the other is a cave-style walk-in shower.

There is a bonus bedroom down a flight of stairs under the main living area. This room doesn't have a door separating it from the living area, but it is still very private as you can't see down here from living room and the sound separation is good. There is a large private patio with a hammock off of this room.

Apartment:

This 2 bedroom 1 bath 800 square foot apartment has a nice tranquil front patio and a separate parking area. It has privacy walls separating view to main house patios and parking area, so guests staying here will have full privacy if they prefer but can join the main house easily at any time..
