

Declaration of Rick Weible

Pursuant to 28 U.S.C Section 1746, I, Rick Weible make the following declaration.

1. I am over the age of 21 years, and I am under no legal disability, which would prevent me from giving this declaration.
2. I currently reside at 803 Elk Street, Elkton, SD 57026.
3. I am a computer network engineer and data analysis expert with over 25 years of industry experience. Owner of a small computer consulting company, that has been in business for over 25 years providing compliance certifications, desktop support, programming, network management and security, web development and hosting.
4. I am the founder of United States Council on Accurate and Secure Elections and have been analyzing elections in multiple states helping both election officials and voters better understand the election systems in an effort to have better oversight and security in our elections.
5. I am aware of MN Rule 8220.1150 - TEST BALLOTS. All test ballots must be marked "TEST." Ballots must be prepared having votes in excess of the number allowed by law for each office and proposal appearing on the ballot. For district offices in which the number of candidates appearing on the ballot for that office varies by district, test ballots must be prepared with the number of votes allowed by law for that office in that district. In partisan primary elections test ballots must be prepared to check the program for splitting tickets. Test ballots must be prepared with votes appearing in the same ballot for candidates of opposite political parties, nonpartisan candidates, and proposals. At least one ballot must be prepared with votes for one party and including votes for a nonpartisan office in excess of the number permitted by law. In preparing the test deck, a number of the ballots must be voted to include valid votes in the partisan, nonpartisan, and proposal sections of the ballot. ***The test deck must include ballots involving no overvotes or marks in unassigned locations, valid votes for each candidate and ballot question, overvotes, undervotes, and invalid votes in many different combinations.*** At least one test ballot must be prepared in which marks appear in the precinct identifier or ballot style indicator. Blank ballots in which no positions have been voted must be included in the test deck. When required to be used in an election pursuant to Minnesota Statutes, section 206.57, subdivision 5, the test deck must include a number of ballots marked by an electronic ballot marker sufficient to have marked all vote targets on the ballot in every precinct. Statutory Authority: MS s 206.57;

206.81; 206.82 History: 10 SR 1690; 17 SR 8; 23 SR 459; 34 SR 1561 Published Electronically:

6. I have reviewed the Logic and Accuracy test of Stillwater Township Precinct 1 July 29th, 2024, when they performed a Public Accuracy Test that directly violated MN Rule 8220.1150, where *“The test deck must include ballots involving no overvotes or marks in unassigned locations, valid votes for each candidate and ballot question, overvotes, undervotes, and invalid votes in many different combinations.”*
7. The following pictures shows the under votes at 0, for the REP United States Senator race and the DFL Senator race, which shows that the election official did not properly test the tabulator and violated MN Rules.

4	Ahmad R. Hassan
3	George H. Kalberer
2	Ole Savior
6	Amy Klobuchar
5	Steve Carlson
1	Over Votes
0	Under Votes
21	Total Votes

8. It is my recommendation that either the tests be redone properly in accordance with the laws and rules of the state of Minnesota or the Township should vote to have a 100% post-election audit, to restore trust in the elections, due to the lack of public confidence established by the poor performance during the testing of the election equipment.

A handwritten signature in black ink, appearing to read "Rick Weible", is written over a light blue rectangular background.
