

World Cup 2026 — the largest in history — is bringing a global wave of high-end travelers, corporate groups, and families to Los Angeles. Homes near the beach, SoFi Stadium, and LAX will be in the highest demand. Manhattan Beach is expected to be one of the most sought-after locations, with rates projected to surge up to three times higher than a typical summer.

As the management company partnered with Airbnb, we bring expert systems, thoughtful preparation, and a hospitality standard that maximizes your home's performance during the World Cup.

Why This Matters:

High-quality homes in Manhattan Beach will be limited, and guests are already searching for well-designed, professionally managed coastal properties. With our 10 years of experience and luxury guest services, your home can capture best-in-market revenue during this once-in-a-lifetime event.

Vacation this summer while your home earns record revenue – fully managed

What We Handle:

- Personal item packing, storage, and coordination
- Dynamic pricing to maximize your World Cup revenue
- 24/7 security, noise monitoring, and guest oversight
- Full coverage for property contents and homeowner belongings
