R Rebecca Mendoza • 4 months ago

I am against the development of the tiny community at the arena/el central proposed location. This area does not have the infrastructure to support this population of individuals. There are no busing routes, community or government support centers, or medical facilities. There is only one nearby food source which is the most expensive grocer in the entirety of Natomas. There are also limited job opportunities in the immediate area and no nearby law enforcement agencies. Further, the location is directly next to a high speed roadway and intersection that would pose serious safety risks to drivers and this population of individuals. Finally, the surrounding communities should be also be heavily considered. There are several well established neighborhoods directly across from this location on arena blvd. and El Centro. This includes an elementary school that is extremely close by. The proposed location does not benefit the population it seeks to help nor the surrounding community it would negatively impact.

S Susana Hernandez • 4 months ago

I live in the area. We have too many bad incidents with homeless trashing the area and acting in a out of order manner.

M Mike Hollifield • 4 months ago

This location is too close to established family neighborhoods and schools. While I support compassionate housing solutions, this site choice shows poor planning and lack of community input. The city should find a location that provides needed services without compromising safety, property values, or quality of life for nearby residents.

F Ferdinand Vargas • 4 months ago

I understand that the homeless needed a place to stay, but why ruin a great community and degrade the values of the surrounding neighborhoods? North Natomas should be known for its class not for it trash!!!

T Tiffany Washington • 5 months ago

My coworker said they added these micro homes across from where she lives and she said it has been a complete disaster. She said there is garbage everywhere and that the building also allows homeless drug addicts to come and shower there. While I think the homeless deserve humane treatment, this is just not the right neighborhood for this type of concept.

G Gary Dhillon • 5 months ago

My sympathy goes out to the hard working families and single families of this neighborhood who work hard and pay their property taxes to ensure this neighborhood is clean safe and a respectable neighborhood to pass down to the younger generations. This project does not represent these families and communities goals and definitely not the right location to house and provide resources for homeless.

A Amarjit Dhillon • 5 months ago

This site is not the right pick for this homeless project. There isn't enough space and resources out here and it's definitely not a good addition for the neighborhood and kids of the school who are in our community.

D D Smith • 5 months ago

I oppose locating a micro-community at El Centro St. in North Natomas. The surrounding developed area has senior citizen neighborhoods as well as significant traffic and general housing. There has to be a better place to put such housing. Please find it.

D D Smith • 5 months ago

I oppose I am against the proposed micro-community in and around the area at around El Centro Blvd. in and around North Natomas. There better areas for such a facility than the suggested site in the middle of a largely developed area. Please do not pursue the currently proposed plan at El Centro and and Arena Blvd.

N Norma Stein • 5 months ago

I live in the corner of Arena and El Centro RD in the mobile home park. The Micro Community will be built right behind my house. The thought is admirable it's not good enough. They want these homes for seniors over 55. Their restrooms will be outside their homes. This is not efficient enough for them. During the winter it will cause discomfort and high risk to their health. They need a better plan.

Olincia White • 5 months ago

Placing people in cages with no electricity and no running water is not a solution.

L Lisa Rojas • 5 months ago

I am all for supporting homeless, but not in a neighborhood where children and senior citizens reside. We pay our property taxes for a safe community and this will bring down our property value. This community belongs in an industrial area, not here!

B Brandon Adams • 5 months ago

Sacramento polite and lack the mental capacity to run such a program. The goal as always is to make jobs for their friends despite the homeless needs. The refusal of city hall to outlaw homeless from camping on their doorstep demonstrates a "Rules for thee and not for me." Attitude. I support the freedom of the mobile home park to exist free of the political blight that City hall has already shown they lack the planning and for site to implement.

L Leon Carson • 5 months ago

Ask the community what it wants before imposing a project like this on us. We do not need any other projects in North Natomas that will lower our quality of lives and the values of our properties.

S Sridhar Billa • 5 months ago

I support this petition, please explore other vacant lots in Sacramento that will be more suitable for such project.

L Lena Hsieh • 5 months ago

This land was zoned for commercial purpose. Building an emergency shelter/micro community there is NOT good for these residents because they don't have cars to reach affordable grocery store and it's too close to a power transformer station. Also, it's on the major way for school kids and right at the front of several residential communities. It's a terrible idea!

K Kelly Due • 5 months ago

The location in North Natomas that is being considered for micro homeless community is highly opposed. The City of Sacramento has not adequately done their due diligence when picking this site. The impact to the existing community threatens the neighborhood's safety - including residents, schools, and businesses. We are a relatively new community who have purchased homes here for peace, safety, and for real estate values. The tiny homes for the homeless will encourage more transient pedestrians who will wander our HOA community - begging, bringing in violence, littering our neighborhoods, utilizing the nature preserve (bringing in homeless campers, illegal fishing, and upsetting the preservation of the eco system). The walking trail along Westshore Lake and Fisherman's Lake for the community to enjoy will suffer greatly due to the close proximity of the proposed micro-community. Please, please, please - do not let this project move forward ... it will be a disaster!!!

E Elaine Weinstein • 5 months ago

This is done without any thought about our children the bringing down of our property value. No background checks are being done. This is totally unacceptable. I understand they need to rid the streets of homeless but you are putting it in a beautiful community. Not going to happen.

I Ingrid Hamel • 5 months ago

I've lived in this community for 11 years, and am watching it slowly decline. Once a very open and relatively new community, is now becoming congested with apartment building on top of apartment building. Add a homeless community in the middle of it all doesn't make sense. First of all, this is presented as if it's for the elderly. The elderly don't need tiny homes with no access to assistance or medical support. Our homeless elderly should have access to nursing homes or assisted living facilities - already gladly paid for by the taxpayers! How are these elderly individuals supposed to get much needed food, medical, and transportation assistance way out here in Natomas??? Not a well thought-out plan. Someone is going to benefit off this scheme, and it's certainly not the homeless elderly or the residents of North Natomas.

A Andres Coy • 5 months ago

This location is central to NP3 and near Witter ranch elementary school. Location should not be anywhere near schools. This is just like the project they complete it at Northgate blvd in front of Garden valley elementary.

G GANESAN JAYARAMAN • 5 months ago

I Meena Ganesan, owner of property located at 3671, Hovnanian drive, Sacramento, 95834 strongly oppose the planned development for homeless people. We pay huge taxes for the County of Sacramento and with this development the property price will fall significantly due to crime, violence, theft and other horrible events. This won't be preferred choice for the middle class community and the educational environment and safety of our kids will be compromised. We are afraid COMMUNITY SAFETY will be a major issue if this development were to occur. We strongly oppose this proposal.

J Jinn Nguyen • 5 months ago

While attempting to provide solutions is a good endeavor this solution feels half baked and forced.

G GANESAN JAYARAMAN • 5 months ago

I'm the owner of 4343 Echo Lake park way, Sacramento, ZIP 95034 and strongly oppose the development due to over congestion, crime and violence expected due to this large development. We also expect the property value will fall precipitously in an already housing bear market.

J Jorge Galeano • 5 months ago

This project will bring crime, drugs and potential human trafficking to our neighborhood. We didn't buy our properties to live next to a homeless camp. Please stop this.

H Harjesika Malhi • 5 months ago

This project brings concerns to our neighborhood especially with so many parks and elementary schools close by. Please stop this.

S Stephanie Amey • 5 months ago

A community like this should not be in close proximity to a school, or along the path where students could be walking to and from school. There are also very few resources on the west side of the freeway. The only walking distance store happens to be one of the most expensive. I'd also be concerned about nearby parks becoming a hangout and therefore becoming less safe for our children.

A Amandeep Gill • 5 months ago

I do not support creating micro community in our neighborhood.

W William Yoder • 5 months ago

I support giving people experiencing homelessness safe, dignified places to stay and access to services as we all benefit when fewer folks are left out in the cold. But this proposed site near Arena Blvd / El Centro is a mistake. The biggest problem is that it's far from public transit, service providers, and food banks. If the city wants to do this right, pick a spot that's closer to transit lines, social services, and adjacent to (or within) corridors already used for higher density or mixed use. That way the residents of the tiny homes are better integrated and more likely to succeed, and nearby neighborhoods won't feel burdened. I urge the decision makers: keep the compassion, move the location.

R Richard Boardman • 5 months ago

I recently spent half \$1,000,000 on a home that sits only across the bridge from this site. I've already seen a plethora of homeless migrating from the site area toward my end on E Commerce. There has been an uptick in homeless presence in the area and this isn't the area nor the right community to place them with. Please reconsider the location far away from newer developed homes. Respectfully, Mr Boardman

A Angelisa Chavez • 5 months ago

The placement of this homeless community needs to be near the actual resources to support those experiencing homelessness; Near public transportation, near food banks, near resources for actually improving the lives of those experiencing homelessness. This tiny home community cannot be placed near family communities. Please return to the drawing board & locate an actual appropriate location for this tiny home community.

C Clarice Bridges • 5 months ago

I care about this issue because I've been in this area since April 2005. I love this neighborhood and have seen the gradual decline, increased crime and the explosion of apartment buildings built in the last 5 years. Housing for the homeless should be in another neighborhood not ours. Has anyone asked the homeless what their hearts desire is? I am not in favor of housing for the homeless in our neighborhood. Build it in Eldorado Hills, Woodland, Davis - anywhere but our neighborhood infested with low income apartments.

S Stephanie Romo • 5 months ago

This project brings concerns to our neighborhood especially with so many parks and elementary schools close by. Please stop this.

P Paulina Kolic • 5 months ago

This parcel is zoned for open space and should remain as such.

Tia Coronado • 5 months ago

The placement of the tiny homes makes very little sense for both those living in the tiny homes and the established communities. The area has zero resources for those that would occupy the tiny homes--no public transportation, no food-bank services, limited food establishments, and the most expensive grocery store in the area.

A Alejandro Romero • 5 months ago

I support this petition wholeheartedly

J joseph p • 5 months ago

This is a poorly thought out project. The units do not have individual bathrooms nor kitchens and it is so close to the elementary school.
